

AMENDMENT ACCOMPANYING A REQUEST FOR CONTINUED EXAMINATION
Appln. No. 08/904,056
Amendment dated April 26, 2005
Reply to Office Action mailed February 24, 2005

Amendments to the Specification:

Please replace the paragraph at page 3, line 24 – page 4, line 2 with the following amended paragraph:

The browsing interface of the present invention may receive a system configuration selection based on a combination of system elements selected from the list of configuration choices 230. The relational database of the present invention may analyze the system configuration selection and provide a description of a function capable of being implemented with the system configuration selection 240. The information presented may include a description of a function capable of being implemented by each component.
